# EESMC Local Uncollectible Files – Error Messages

This job aid details the possible error messages for EESMC Local Uncollectible files.

Be sure to review the Start and End Position of each field, the Type/Length of each field and the format and content of each field.

Any errors within these details could have created the related error message.

The EESMC Local Uncollectible File Format (User Guide Chapter 4, Appendix 3) contains the specifics for these details and may be helpful in locating and correcting these errors in your file.

Remember – the error message is formatted:

**FIPS Code / Taxable Year / External ID / Customer Name / Error Message(s)**

| Error Message | Field Name |
|---|---|
| Invalid - FIPS Code<br>**NOTE:** The Uncollectible file is attached to the error message for "Invalid FIPS Code". | fips_code |
